

A 16x16 grid with a light gray background and thin gray grid lines. Red dots are placed in the grid cells to form a diamond shape. The dots are located at the following (row, column) coordinates, where (0,0) is the top-left cell and (15,15) is the bottom-right cell:
Row 0: (0,7), (0,8), (0,9), (0,10)
Row 1: (1,6), (1,7), (1,8), (1,9), (1,10), (1,11)
Row 2: (2,5), (2,6), (2,7), (2,8), (2,9), (2,10), (2,11), (2,12)
Row 3: (3,4), (3,5), (3,6), (3,7), (3,8), (3,9), (3,10), (3,11), (3,12), (3,13)
Row 4: (4,3), (4,4), (4,5), (4,6), (4,7), (4,8), (4,9), (4,10), (4,11), (4,12), (4,13)
Row 5: (5,2), (5,3), (5,4), (5,5), (5,6), (5,7), (5,8), (5,9), (5,10), (5,11), (5,12), (5,13)
Row 6: (6,1), (6,2), (6,3), (6,4), (6,5), (6,6), (6,7), (6,8), (6,9), (6,10), (6,11), (6,12), (6,13)
Row 7: (7,0), (7,1), (7,2), (7,3), (7,4), (7,5), (7,6), (7,7), (7,8), (7,9), (7,10), (7,11), (7,12)
Row 8: (8,1), (8,2), (8,3), (8,4), (8,5), (8,6), (8,7), (8,8), (8,9), (8,10), (8,11), (8,12)
Row 9: (9,2), (9,3), (9,4), (9,5), (9,6), (9,7), (9,8), (9,9), (9,10), (9,11), (9,12)
Row 10: (10,3), (10,4), (10,5), (10,6), (10,7), (10,8), (10,9), (10,10), (10,11)
Row 11: (11,4), (11,5), (11,6), (11,7), (11,8)
Row 12: (12,5), (12,6), (12,7)
Row 13: (13,6), (13,7)
Row 14: (14,7)
The dots are arranged symmetrically both horizontally and vertically, with the widest part of the diamond being 13 dots across in the middle row (row 7).
